

Notification No: 049/2017

28 March 2017

Dear Parents/Guardians of P4 pupils,

**Code For Fun Programme 2017 For Primary 4 Pupils**

Dear Parents/Guardians,

As part of the school's effort to develop our pupils' thinking skills, we have started the Code For Fun programme in 2016. We will be continuing the programme with P3 and P4 students in 2017. The entire course is 20 hours and it will be conducted in two years. Each year there will be five sessions of two hours each. During the Code For Fun lessons, pupils will be taught basic computer programming which trains them to be analytical and logical in their approach to solving problems. Please refer to the table below for the dates of the 5 sessions.

To better support your child, we urge you to install the SCRATCH 2.0 programme on your home PC so that your child can practise what he / she has learnt in school. We appreciate your cooperation and support for our school programme.

2. Details are as follows:
